EDUCATION

University of Mumbai

Bachelors in Computer Engineering

Mumbai, MH

Aug 2021- Jun 2024

Maharashtra Polytechnic

Diploma In Computer Engineering

Mandangad, Ratnagiri

Aug 2019- May 2021

EXPERIENCE

SBI Securities LTD

Network Support Engineer

Jan 2025 – Aug 2025

Mumbai, MH

- Provided remote and on-site support for network incidents, troubleshooting LAN/WAN connectivity issues and coordinating with vendors and internal teams for quick resolution.
- Monitored and maintained routing and switching infrastructure, assisting in VLAN configuration, IP addressing, and network connectivity troubleshooting.
- Supported CI/CD adoption by integrating network validation steps into pipeline runs and documenting runbooks for incident response.
- Performed network monitoring and basic diagnostics using logs and monitoring tools to identify link failures and service disruptions.

PROJECTS

DevSecOps Pipeline with Kubernetes | *Jenkins, GitHub Actions, MicroK8s.*

Jan 2026 – Feb 2026

- Designed and implemented a multi-stage CI/CD pipeline for microservices, automating build, security testing, and deployment workflows.
- Integrated SAST using CodeQL to identify vulnerabilities during the development phase and enforce secure coding practices
- Built and pushed Docker images to Docker Hub, and deployed frontend, backend, and database services as Kubernetes pods on MicroK8s.
- Implemented container image security scanning with Trivy and DAST testing using OWASP ZAP to identify runtime and application-level vulnerabilities.

Zero Trust DevSecOps Platform | *AWS, Docker, WireGuard, Wazuh, Nagios*

Dec 2025 – Feb 2026

- Designed and implemented a Zero Trust DevSecOps architecture to automate secure application deployments across on-premises and AWS infrastructure.
- Enforced least-privilege access and secure service communication using WireGuard VPN tunnels between infrastructure components.
- Deployed Wazuh agents for host and container threat detection, enabling centralized security monitoring and log analysis.
- Integrated Syslog and Nagios for centralized logging, alerting, and infrastructure health monitoring.

TECHNICAL SKILLS

Technical: Git, Docker, Kubernetes, Cloud(AWS), Linux and Networking

Programming: Python, SQL, Bash

Interpersonal: Excellent Communication, Team Collaboration, Project Management, Discipline.
